

The FCC guidelines towards ownership of radio, television and newspapers are moving in the direction of singlemindedness. The diversity of our community would be served best through a diverse media. This agenda will bring our access to the truth to a minimum! There is no logical justification for limiting the public access to unbiased information thru television and radio. We need to diversify our media to a local ownership of our airwaves by 50%. Please do not allow our public airwaves to be owned by such a few individuals. This is a monopoly. Your job is to protect the public from this very thing. WE THE PEOPLE THANK YOU FOR NOT ALLOWING THIS CHANGE IN OUR CURRENT OWNERSHIP RULES.
